SUMMARY:

AI & Machine Learning Engineer with a strong foundation in Python, SQL, Machine Learning, Deep Learning, Data Analysis, and AI application development. Skilled in building predictive models, data preprocessing, and developing intelligent solutions using Python, HTML, CSS, JavaScript, UI/UX Design, and Microsoft Azure. Passionate about leveraging Artificial Intelligence, Data Science, and Cloud Technologies to solve real-world problems, optimize business processes, and enhance user experiences.

SKILLS:

Programming Languages: Python.
Web Development: ReactJS, HTML5, CSS3, JavaScript.

AI &Machine learning: NumPy,Pandas ,Scikit-learn,TensorFlow,NLP.
UI/UX & Design Tools: Figma, Adobe XD, Adobe Photoshop.

DataAnalytics: SQl,Power BI, Microsoft Excel.
Development Tools: Git, GitHub, Docker

EXPERIENCE:

Alric Infotech | Intern (Web Development), Thiruvananthapuram,Kerala| 6th June – 7th July, 2025

- Developed responsive web pages using HTML, CSS, JavaScript, and UI/UX principles.
- Collaborated with the development team to build user-friendly interfaces.

GenLab | (AI & ML), Nagercoil, Tamil Nadu | July– Present, 2026

- Worked on Machine Learning and Deep Learning techniques, including data preprocessing, model development, training, and evaluation.
- Developed AI applications using Retrieval-Augmented Generation (RAG) for information retrieval and context-aware response generation.

Project:

Hearconet |AI-Based Communication Platform For Deaf and Hearing-Impaired Individuals

- Developed an AI-powered communication platform for deaf and hearing-impaired users.
- Implemented Speech-to-Text and Sign Language-to-Text/Speech features using AI.
- Integrated DL,OpenCV, MediaPipe, and Speech Recognition for gesture and voice processing.

RAG-Based Model| Python, LangChain, Gemini API

- Built a **RAG Model** using Python, LangChain, FAISS, and Google Gemini API.
- Implemented semantic search and vector embeddings for PDF-based question answering.

Student Depression Prediction Using Machine Learning

- Built a Random Forest model achieving 86.78% accuracy.
- Tech Stack: Python, Pandas, Scikit-learn, Streamlit, Joblib.

EDUCATION:

B.Tech| Artificial Intelligence and Data Science |
DMI Engineering College | 2023 – 2027|

ACHIVEMENTS:

- Secured 3rd place in Wildlife Week Poster Competition 2023, organized by the Government of Tamil Nadu.
- Secured 2nd Place at IEEE Project Expo 2K26 for **"HearConnect"** - an AI-based communication platform designed to assist deaf and hearing-impaired individuals.
- Participated in Smart India Hackathon (SIH) Internal Hackathon in 2023 to 2025.
- Participated in a **24-hour national-level hackathon** organized by Karpagam Academy of Higher Education.
